

# OZONE LADEN

**I**NFORMATION regarding the healthful condition of Kaimuki's climate convince us more and more each week, as we continue our development work, that the Palolo Hill Tract, with its high elevation and dry, cool atmosphere, will become a residential section of far more importance than many Honolulu people realize. There is

## Ozone In The Climate

of Palolo Hill--Ozone manufactured by nature bringing the soft, gentle sea breeze in contact with the sun's rays upon the slopes of the Hill--Ozone that is dry, cool, healthful--Ozone that is free of all humidity, free of mosquitoes and of disease germs, It is the ideal climate to live in, and cannot help but prove to be the most desirable and beautiful residential section in the Islands. We are placing building restrictions upon this property and spending thousands upon thousands of dollars on splendid roadways and improvements, and we are doing so with the full confidence that we have the most valuable asset in the suburban real estate line in Honolulu today.

Call and see us in our new offices over the  
HAWAIIAN TRUST COMPANY, LIMITED.
